Principles of Histology Biochemistry and Genetics

In my first semester, I found it difficult to adjust to medical school. My results showed that I need to improve my study method.

I did okay in Anatomy, but I was not satisfied. In Histology and Biochemistry, my result was not good, which made me realize that I was not studying regularly.

I learned that I should manage my time better and study consistently instead of depending on last-minute revision.

Next semester, I will try to follow a better study plan and focus more on my weak points.

Grade item	Calculated weight	Grade	Range	Percentage	Feedback	Contribution to course total
Principles of Pathology Microbiology, Parasitology and Pharmacology_8						
QUIZ Quiz 1	37.50 %	15.00	0-15	100.00 %		37.50 %
QUIZ Quiz 2	62.50 %	✓ 25.00	0-25	100.00 %		62.50 %
AGGREGATION Course total	-	40.00	0-40	100.00 %		-

During the TBL session, I worked with my team to answer questions and discuss different ideas. At the beginning, I was a bit unsure, but working in a group helped me understand the topics better.

We shared our answers and discussed them together. Sometimes we had different opinions, but this helped us think more and reach the correct answers.

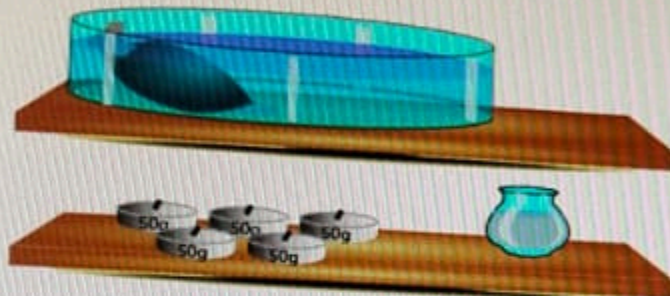

I learned that teamwork is very important and that discussing with others improves understanding. It also showed me that I need to prepare better before attending the session.

In the future, I will try to participate more and be more prepared to get better results from TBL sessions.
